Peonies

1927

W. G. DuMont
2700 49th Street
DES MOINES, IOWA

SIZE OF ROOTS

Our prices are quoted on strong 3 to 5 eye divisions with a well-balanced root system. Divisions are made from healthy, robust two and three-year-old plants. We have made a special study of this division question and our decision is that we will under no conditions supply the small one-eye divisions that became so popular a few years ago. Good roots count more than eyes. I can not see any use of a lot of eyes unless there is sufficiently good root system to maintain the eyes in good growing condition.

PRICES

All prices are quoted at Des Moines, Iowa, carrying charges to be paid by the purchaser. Express is the very best way on orders of any size to be shipped. Parcel post next. If roots are to go by parcel post add 5 cents for each root purchased.

All boxing and packing free of cost.

Remittance must accompany all orders. We exercise the greatest of care in selecting the roots for shipment and know they are true to name; and will refund purchaser's price on proper proof of all untrue.

We give no further warranty, and in case of an error on our part it is mutually agreed between the purchaser and ourselves that we shall not at any time be held responsible for a greater amount than the original price paid for the stock.

LOCATON

Our gardens are located at 2700 Forty-ninth Street, Des Moines, Iowa, five miles from the business district. Motor out Beaver Avenue to the crossing of the Urbendale car line, go west to Forty-ninth street, then south two blocks; visitors are always welcome.

SOIL

The new planting each fall is made on blue grass sod, which has been in pasture, this with the natural black loam, we think makes the best roots that are possible to be grown.

PLANTING

If possible prepare the ground for the new peonies in advance of planting, that it may settle. Have this place where it is sunny and well drained, away from the roots of trees or shrubs. Plant with the eyes two inches under the surface and hill up the soil over the new planted root to turn the water. After the ground is frozen cover with straw or other material to prevent heaving by the March freezing and thawing. Remove this in the spring when they are about ready to poke their heads through. DO NOT use fresh manure. Bone meal, pulverized sheep manure, and wood ashes dug in away from the plant may be safely used, if applied sparingly.

SHIPMENT

We begin digging September first, and ship until the ground is frozen.

AMERICAN PEONY SOCIETY

For your pleasure and profit join the American Peony Society, annual dues three dollars per year, payable to Mr. Jamse Boyd, Haverford, Penn. Four valuable bulletins per year.

The rating preceeding the variety name has been established by the American Peony Society on the basis of 10 being perfect.

	Tenuifolia, Double, brilliant red, very early, fern leaf-----	2.00
8.8	Officinalis Rubra, Double bomb type bloom, blood red, early-----	1.00

JAPS AND SINGLES

We are growing in our fields, trying to increase stock, twenty-two varieties of the very choicest single Peonies and thirty-five varieties of Japanese Peonies. We regret that we are compelled to withdraw these from our sales list this year, but the demand is so great that we are forced to do so in order to build up a sufficient stock for the future. We have also under cultivation over 100 of the newer varieties of Peonies that we do not list, for we will not sell a plant to a customer that we have not grown and know it is true to name, and our stock of them is not sufficiently large to justify listing. Next year we hope to be able to serve you better by giving you a bigger and better selection to choose from.

PEONY COLLECTION

We are offering but one peony collection this year and most of our peonies listed here are at a price very reasonable and prohibit any further reductions in prices. This collection we feel is the very best ever offered and comprises a choice lot of good flowers.

Albert Crousse	\$ 1.00
Asa Gray	1.00
Augustin D. Hour	1.00
Clara Barton	1.00
Delachei	1.00
Ella C. Kelway	1.50

Old Silver Top	1.00
Pierre Ducharte	2.00
Ruth Brand	1.50
<hr/>	
Total	\$25.50

We will supply you one standard division of the entire collection for \$10.00.

LILACS

We are striving to build up a stock of the better French hybrid lilacs. We will have for sale this year but a small assortment. These are three-year-old plants averaging 3 to 4 feet high and all bloomed and been checked true to name.

Charles X A very sturdy grower with reddish purple single bloom.

William Robinson Very large trusses of deep pinkish violet, double.

Mme Abel Chatenay Large, compact trusses of milk white, double.

Hyacinthaflora fl. pl. Earliest lilac to bloom, blueish lavender, single.

Mme Casimer Perier Beautiful double white, large bloom.

We are pricing any of the above for \$2.00 per plant. These are very choice plants.
